How parents can get involved

Policy Council – the governing board for Kid's Corps, Inc.

PCM – a family night and meeting that happens monthly at each center to help keep families aware of the happenings at KCI and present information.

Parents R Us – an educational night where a different information is presented to families each month about a variety of topics

Parent Volunteer Day – a chance to spend time in the classroom and complete planned activities with their children.

Man 2 Man – a time for fathers or father figures and their children to complete activities together and build relationships

Just 4 Moms – an opportunity for mothers to relax and pamper themselves and have a little fun while socializing and learning something new.

Transition Advisory Committee – assists in determining methods for successful transitions for head start families into and out of programs

EI/EAC Advisory Committee – reviews curriculum, on-going assessments and outcomes, and makes recommendations to strengthen educational services.

Health Advisory Committee – makes recommendations with regards to health and nutrition services delivered to families.

Family Service/ Parent Involvement Advisory committee – focuses the agencies provisions of family services to discuss the family service practice, policies, forms, and how to best meet the needs of our families.

What to expect in Head Start

“Providing a head start to families and children who need it the most.”

Kids' Corps, Inc.

101 Davis St
Anchorage, AK 99508
907-272-0133

The Basics

Classrooms have one teacher and one assistant teacher and range from 16-20 children.

Children are given either breakfast, snack, and lunch everyday, and the meals are served family style, with children encouraged to try new things.

Teachers send home a "What I Learned" sheet every week listing the different activities they did in the classroom and the different materials and themes incorporated. These are used to help parents discuss their child's learning.

Parent teacher conferences happen 2-3 times a year, during these conferences teachers and parents discuss their child's progress and what they will be working toward next, they also go over the child's portfolio of work.

Teacher home visits happen 2-3 times a year, they run an hour and a half The teachers come prepared with a social emotional, a literacy, and a health, safety, or nutrition activity.

Children go outside everyday unless the temperature drops below 0 degrees Fahrenheit, all children who attend will go out with the class. Please send them appropriate cold weather and snow gear.

What you'll find in the classroom

Kids' Corps, Inc. focuses on learning through play, so each classroom will have multiple learning centers that develop different skill sets.

Art—encourages language, creative expression, follow-through, material exploration, directions, listening, colors, and counting
